HISTORICAL STATEMENT

Prairie View A&M University is a part of the Texas A&M University System, which was created in 1948. Other parts of the System are Texas A&M Universities at Bryan and at Galveston, Corpus Christi State University, Laredo State University, Texas A&I University, West Texas State University, Tarleton State University, the Texas Agricultural Experiment Station, the Texas Agricultural Extension Service, the Texas Engineering Experiment Station, the Texas Engineering Extension Service, the Texas Forest Service, the Texas Transportation Institute, and the Texas Veterinary Medical Diagnostic Laboratory.

Prairie View A&M University, the second oldest public institution of higher education in Texas, originated in the Texas Constitution of 1876. Having already established the Agricultural and Mechanical College of Texas (later to be named Texas A&M University) in 1871, legislators pledged in the Texas Constitution of 1876 that "separate schools shall be provided for the white and colored children, and impartial provisions shall be made for both." On August 14, 1876, the Texas Legislature established the "Agricultural and Mechanical College of Texas for Colored Youths" and placed responsibility for its management with the Board of Directors of the Agricultural and Mechanical College at Bryan. The A&M College of Texas for Colored Youths opened at Prairie View, Texas on March 11, 1878.

The University's original curriculum was designated by the Texas Legislature in 1879 to be that of a "Normal School" for the "preparation and training of Colored teachers." This curriculum was expanded to include the arts and sciences, home economics, agriculture, mechanical arts, and nursing after the University was established as a branch of the agricultural experiment station (Hatch Act, 1887) and as a Land Grant College (Morrill Act, 1890). Thus began the tradition of agricultural research and community service which still continues today.

In 1919, the four-year senior college program was begun, and in 1937, a division of graduate studies was added, offering master's degrees in agricultural economics, rural education, agricultural education, school administration and supervision and rural sociology.

In 1945, the name of the institution was changed from Prairie View Normal and Industrial College to Prairie View A&M University, and the school was authorized to offer, "as need arises," all courses offered at the University of Texas. In 1947, the Texas Legislature changed the name to Prairie View A&M College of Texas and provided that "courses be offered in

agriculture, the mechanic arts, engineering, and the natural sciences connected therewith, together with any other courses authorized at Prairie View at the time of passage of this act, all of which shall be equivalent to those offered at the Agricultural and Mechanical college of Texas at Bryan." On August 27, 1973, the name of the institution was changed to Prairie View A&M University, and its status as an independent unit of the Texas A&M University System was reconfirmed.

In 1981, the Texas Legislature acknowledged the University's rich tradition of service and identified various state-wide needs which the University should address, including the assistance of students of diverse ethnic and socio-economic backgrounds to realize their full potential, and the assistance of small and medium-sized communities and businesses in their growth and development.

In 1983, the Texas Legislature proposed a constitutional amendment to restructure the Permanent University Fund to include Prairie View A&M University as a beneficiary of its proceeds. (The Permanent University Fund is a perpetual endowment fund originally established in the Constitution of 1876 for the sole benefit of the Agricultural and Mechanical College--Texas A&M University--and the University of Texas.) The 1983 amendment also dedicated the University to enhancement as an "institution of the first-class" under the governing board of The Texas A&M University System. The constitutional amendment was approved by the voters on November 6, 1984.

In January 1985, the Board of Regents of the Texas A&M University System responded to the 1984 Constitutional Amendment by stating its intention that Prairie View A&M University become "an institution nationally recognized in its areas of education and research." The Board also resolved that the University receive its share of the Available University Fund, as previously agreed to by Texas A&M University and the University of Texas.

The University's enrollment now exceeds 5,500, including over 500 graduate students. Students come from throughout the United States as well as many foreign countries. Over 2,400 academic degrees have been awarded in the last five years, including over 800 graduate degrees.

MISSION STATEMENT
(Revised, May 1990)

Prairie View A&M University is dedicated to fulfilling a mission of excellence in education, research and service. The University is a public state institution; a land grant institution by federal statute; has a legislative designation as a "state-wide special purpose" institution, to serve a population of diverse ethnic and socioeconomic backgrounds; and, is designated by the State Constitution as one of the three "institutions of the first class" in Texas. The University is committed to assisting individuals to achieve their full potential to live a meaningful and productive life; to enhance all aspects of the society; and, to foster and preserve the democratic way of life and free enterprise system. The University offers high quality undergraduate and graduate educational programs in agriculture, home economics, industrial and engineering technology, teacher education, liberal arts, social and political sciences, engineering, architecture, art, music, drama, business, nursing, biological and physical sciences, pre-medical, pre-dental and pre-veterinary medicine, military sciences and a unique and innovative honors program. The research program includes basic and applied research. Its extension and public service programs deliver research-based information and programs to the general public. Its international program serves the

national effort in helping to bring human, economic and democratic benefits to the global world.

The primary purpose of Prairie View A&M University is to serve Texas, but its service area extends to the nation and the world.

**-A student credit hour is defined as: A unit of measure that represents one student engaged in an activity for which one hour of credit toward a degree or other certificate is granted upon successful completion. Total student credit hours for a course are calculated by multiplying the course's credit-hour value by the number of students enrolled in the course.
